EDUCATION

University of Western Ontario

London, ON

Honours Specialization in Computer Science | GPA: 3.7/4.0

Expected April 2027

- Undergraduate Thesis (in progress): Analyzing competitive moats for AI-native startups in the generative AI era, focusing on platform risk when hyperscaler partners launch competing products; supervised at Ivey Business School

WORK EXPERIENCE

TD Bank

Toronto, ON

Business Systems Analyst Intern

May 2026 – August 2026

- Scoped requirements with 10 users and launched People Directory Insights (Power BI) to replace manual reporting, **cutting effort 80%**; shipped 4 feedback-driven versions, now used weekly
- Prioritized **10+ initiatives across 5+ stakeholder groups**, writing user stories and specs in Jira; delivered 6 projects
- Built VOLT, the team's **first unified view of vendor relationships** across 3 systems; demoed to drive adoption, now used before every event
- Presented People Directory Insights to a VP and at TD's intern showcase
- Coordinated SSO rollout for 100+ users, aligning security, infrastructure, compliance, and risk teams through privacy review and go-live

Software Engineer Intern

May 2025 – August 2025

- Migrated legacy fraud claims data to the cloud with PySpark pipelines in Databricks and automated daily reporting for **10+ fraud analysts**
- Laid the data foundation for a fraud threat dashboard for the **VP of Canadian Fraud**
- Built the business case and sunset plan for decommissioning Eclipse, a legacy platform, mapping migration for **10+ teams**

Synic Software

Vancouver, BC

Software Engineer Intern – Full-Stack

May 2024 – August 2024

- Partnered with designers to ship AI-generated menus in Heymate!, a restaurant app, using OpenAI's API, **cutting menu creation effort 30%**

LEADERSHIP

Canadian Asian International Students Association

London, ON

President (prev. VP Internal, Special Events Director, Special Events Rep)

2022 – Present

- Direct a 60-person executive team; **doubled membership** through social campaigns, influencer outreach, and partnerships with local businesses and clubs
- Run 2 events per month and speak at each, including flagships of **500+ attendees**; manage \$20K in funds and secured 15 sponsors

Western Tech for Social Impact

London, ON

Developer Director

2024 – Present

- Head development, managing 4 developers through sprints, code reviews, project planning, and wireframes
- Led the build of a platform for GO Hockey, a nonprofit serving **500+ kids**, replacing 50+ spreadsheets and forms; iterated with the client after launch

Women in Tech Society+

London, ON

Development Director

2024 – Present

- Manage 5 developers building the SheHacks+ hackathon website for **300+ participants**; run internal code reviews and workshops
